

EM 346 60% actives silicone emulsion

Description

This product is an industrial nonionic polydimethylsiloxane emulsion.

Key Features

- Excellent break out with minimal stress or heating
- High temperature stability versus organics
- APE free
- Easily dispersed in water with minimal agitation

Key Applications

- Textile lubricants
- Fiberglass treatment
- Tire dressing
- Vinyl dressing

Application

This non-ionic emulsion demonstrates excellent dilution stability and has an industry leading particle size and is seen through its characteristic blue hue. This emulsion is designed to provide hydrophobic characteristics to fiber glass as well as a wide range of industrial applications.

Use and Cure Information

To optimize the dispersion of this emulsion into the final formulation, it is recommended to add it slowly at the end of the procedure at a temperature below 40 °C (104 °F) with continuous mixing or stirring.

Health & Safety

Read product and safety data sheets before handling this product for physical and health hazard information. The safety data sheet is available from your CHT representative.

Limitations

This product is not intended for pharmaceutical use.
